**This 15-month certificate training program** will provide the foundational framework necessary to facilitate groups or to work in individual settings. Students learn together in a mutually supportive cohort environment. This 24-day training is made up of 6 four-day modules. Each module typically includes theory, experiential learning, gaining skills through participation in a public workshop, and supervised practice. Students solidify skills between modules in their peer-practice group. In the final module students demonstrate their facilitation skills in a public workshop.

### LEARN TO:

- Enhance your professional services for greater value and satisfaction
- Have more effective results with your customers or clients
- Utilize facilitation skills for group and 1 to 1 sessions or workshops
- Leverage systemic wisdom personally and professionally

### Who will Benefit from this Training?

Therapists, nurses, coaches, counselors, attorneys, teachers, chaplains, mentors, HR specialists, psychologists, naturopaths, supervisors, managers & consultants.
